Re:New Nature

Re:New Nature

Join us to Re:New Nature
in the New Forest and
wider area

The New Forest can
be viewed as the core
of heavily protected
habitats with four
surrounding areas,
each with its own
landscape character.

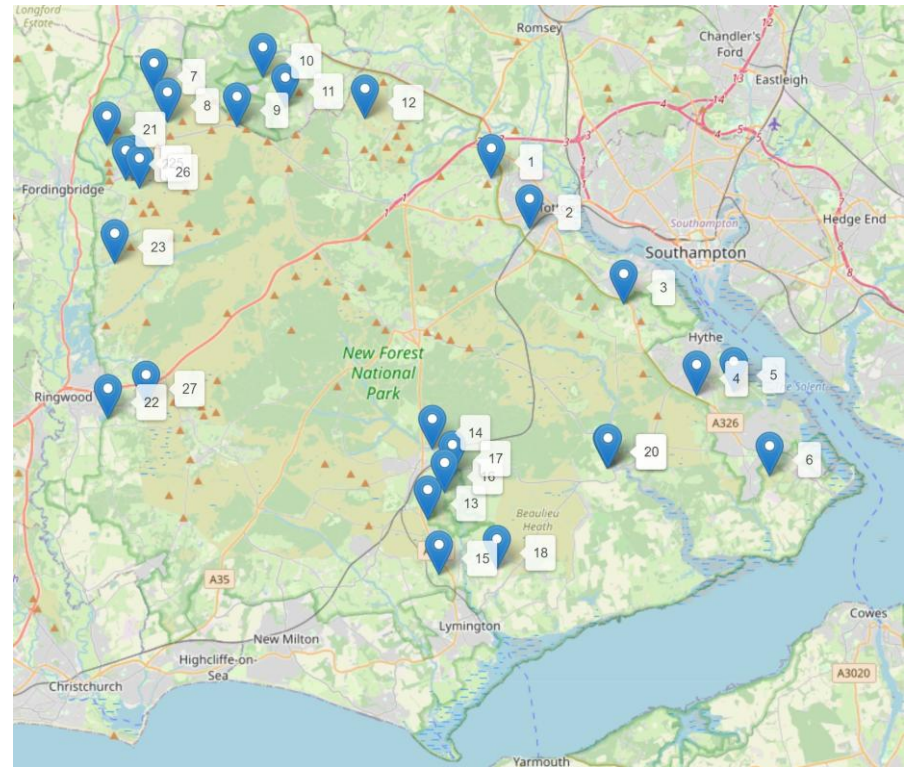

We have identified
four nature recovery
themes that will be
critical to the future
of the Forest.

Nature Recovery Species Survival Fund Action

Nature Improvements

- Extensive surveys
- Wetlands
- Heathland
- Wildflower meadows
- Hedgerows
- Woodlands
- Engagement and communications

**SPECIES
SURVIVAL
FUND**

Funded by
UK Government

Heritage
Fund

Wild New Forest

**Hampshire &
Isle of Wight
Wildlife Trust**

**amphibian and reptile
conservation**

Nature Recovery Species Survival Fund Legacy

Team New Forest

- Building on existing and forging new relationships
- Coming together to share resources and expertise – greater than the sum of our parts
- Maximising outcomes for nature across habitats and ownership boundaries

Excellence

- The New Forest is a place where the highest quality nature improvements are excellent value for money
- We have the skills within the landscape to deliver high quality outcomes
- Showcasing success leads to future investment
